Miscellaneous

The CEPII has also animated a Group of Scientific Interest (GIS) focused on Trade policy, created last year, jointly with the INRA (French institute for agronomic research) and the French Ministry of Finance (Forecasting Directorate and Directorate for External Economic Relationships). This Group facilitates exchanges and co-operation between its members, and organises seminars on trade policies.

The CEPII has in addition provided to GTAP three successive versions of the MAcMap database in the GTAP classification, in view to serve as input for the GTAP 6 database. Updated documentation for this database is made available at <http://www.cepii.fr/anglaisgraph/bdd/macmap.htm> .
